Product description

100-word description

Start talking with the Logitech® Stereo Headset H111. It's perfect for making Internet calls, listening to music, watching movies, and playing games in full stereo sound. A noise-canceling microphone reduces annoying background noise, which helps keep your conversations clear. You can wear the flexible microphone on either your left or right side, and rotate it up and out of the way when you're done chatting. An adjustable headband gives you just the right fit. And you can use it on almost all operating systems and platforms thanks to the standard 3.5mm jack connectivity.

50-word description

Start talking with the Logitech® Stereo Headset H111. It's perfect for making Internet calls, listening to music, and playing games, too. A noise-canceling microphone helps keep your conversations clear. You can wear the microphone on either your left or right side, and rotate it out of the way when you're done chatting. An adjustable headband gives you just the right fit.
